EDUCATION

University of Massachusetts Amherst, Amherst, MA
Bachelor of Science in Computer Science
Deans List

Jan 2024
GPA: 3.725

Relevant Courses: Web Programming, Data Management, AI, Decarbonization & Data Science, Algorithms, Secure Distributed Systems

TECHNICAL SKILLS

- **Programming:** JavaScript, TypeScript, React, Next.js, TailwindCSS, Python, C, C#, MATLAB, SQL
- **Tools:** Node.js, Git, GitHub, VSCode, PostgreSQL, AWS, MongoDB
- **Certifications:** AWS Cloud Practitioner

PROJECTS

Monolithconcorp.com - *Company Website* Jan 2024 - Present

- Communicated with the Monolith team to execute the design, development, and deployment of Monolith Construction Corp.'s company website.
- Front end developed using HTML, Tailwind CSS and JavaScript. Deployed using AWS.

Adventure Generator - *Independent Project* Nov 2023 - Present

- A single page web application that integrates database management to generate "adventures" using user input.
- Engineered front-end/UI with JS for data handling and HTML/CSS for styling, programmed the back-end server with Express.js.
- Application makes use of CRUD operations and MonogDB Atlas database for data storage and manipulation.

EXPERIENCE

Freelance Software Developer Jan 2024 - Present

- **Web Development** - *Contracted by: Monolith Construction Corp.*
 - Executed the design, development, and deployment of the company website.
 - Integrated Google Workspace as the company's primary collaboration and productivity tool.
- **AI Training** - *Contracted by: Data Annotation*
 - Analyzed and debugged LLM responses to coding related prompts to improve model performance.
 - Developed example prompts and then algorithms and solutions to said prompts in a variety of programming languages (Python, JavaScript, SQL, C#, etc.) in order to train AI models.

Teacher's Assistant/Grader Jan 2022 - May 2022
Embry Riddle Aeronautical University Daytona, FL

- Provided excellent academic assistance in an introductory computer science course to a class of 30 students.
- Introduced students to the basics of computer programming while providing feedback and debugging student code for class assignments and final projects.

Server June 2021 - June 2024
Dave's Diner Middleboro, MA

- Consistently provided excellent customer service in a fast paced and dynamic food service setting.
- Collaborated effectively with other team members to ensure service standards remain consistent.
- Communicated effectively with both staff and customers.
